DentalGuard Dental Insurance Plan General Limitations and Exclusions:

This policy provides dental insurance only. Coverage is limited to those charges that are necessary to prevent, diagnose or treat dental disease, defect or injury. Deductibles apply. The plan does not pay for: oral hygiene services (except as covered under Preventive Services), orthodontic (unless expressly provided for), cosmetic or experimental treatments, any treatments to the extent benefits are payable by any other payor or for which no charge is made, prosthetic devices unless certain conditions are met, and services ancillary to surgical treatment. The plan limits benefits for diagnostic consultations and for preventive, restorative, endodontic, periodontic and prosthodontic services. The services, exclusions and limitations listed above do not constitute a contract and are a summary only. The Guardian plan documents are the final arbiter of coverage. GP-1-DNTL-90-1 et al.
